Call for papers

The APVC is an international conference held once every two years with the intention of encouraging scientific and technical cooperation among Asia Pacific countries. The conference aims to bring researchers, engineers and students from but not limited to areas around the Asia Pacific countries in a collegial and stimulating environment to present the most recent developments and new information on any aspect of mechanical vibration and sound.

The previous sixteen conferences were held in Japan (1985), Korea (1987), China (1989), Australia (1991), Japan (1993), Malaysia (1995), Korea (1997), Singapore (1999), China (2001), Australia (2003), Malaysia (2005), Japan (2007), New Zealand (2009), China (2011), Korea (2013) and Vietnam (2015).
